							This charge is for actual water used (as per water meter reading). It covers the cost of treating the water and the repair and replacement of water mains and treatment plant equipment. Revenue generation depends on summer weather conditions. Water consumption rate is increased by 2.25% or 5 cents per cubic meter. The average residential monthly water bill increases from \$46.96 to \$47.81 or by 85 cents per month. Proposed increase in annual revenue reflects approximately 1% increase in new water accounts per year.
